The Edinburg is still one of our best-sellers. The excitement begins with the exterior back porch and continues into the breezy large hall with its built-in arched and sweeping wood stairway to the second level. The family room, located near the back, features a vaulted ceiling and a large fireplace that may be accessed through the dining space. An optional side porch can be added, too, handy for extra seating, which can be extended into another area. The owner's suite includes a double closet with two sunny windows. (Again, two different bedrooms are suggested.) A husband and wife, just 35, purchased their new suite with a full bath and a closet.

The floor plan of the second floor shows a central corridor connecting various rooms. On the left side, there is a 'Study' and a 'Bedroom'. The central area contains a 'Bathroom' and a 'Living Room'. On the right side, there is a 'Kitchen' and a 'Dining Room'. A 'Common Room' is located at the far right. The plan also indicates the location of a 'Staircase' and a 'Storage' area.
